

Learning can happen anywhere. Interactive and hands-on learning is the best way for anyone to learn, especially our kiddos.

The following pages provide a schedule of ways to have fun learning. Each day has its own “theme” and a few suggestions to go with it. This way, you don’t have to feel overwhelmed that you have to do it all every day. Perhaps you need a little help to organize yourself and your to-do list. Maybe you need a reminder to slow yourself down from the hectic reality of our lives and spend a little time embedding a little learning into our schedule and routines.

Following the “schedule”, you will see some listed benefits of each area.

Following that, you will find a more formally guided activity.

You are encouraged to complete an activity (your own and/or the guided activity) and share your results with us. Take a photo, a video, and/or write a journal entry with your child’s dictated words.

Interactive activities: * are a fun way for kids to play & learn. *physical activities promote fitness & health. *games & puzzles aid in skill development. *collaborative activities improve social skills & tighten bonds. *cooperative games teach essential life lessons.

Having fun: *reduces stress. *improves our ability to cope. *boosts energy. *improves memory & concentration. *improves our connections with others. *improves sounder sleep.

Guided Activity:

77

Math with Uno

Match the written number with objects found in your home!

Materials:

Uno cards or playing cards. Or make your own number cards using index cards and marker

Objects to use as counters: Legos, coins, marbles, stones, beads, matchbox cars

What to do:

Using only the number cards from the Uno deck, have your child draw a card, identify the number, and count out objects to match that number.

Extension:

Ask which cards have more? Which cards have less?

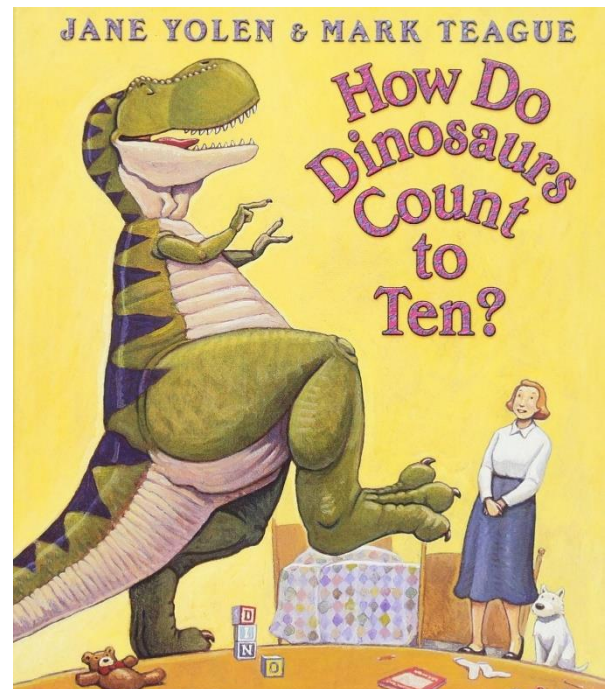

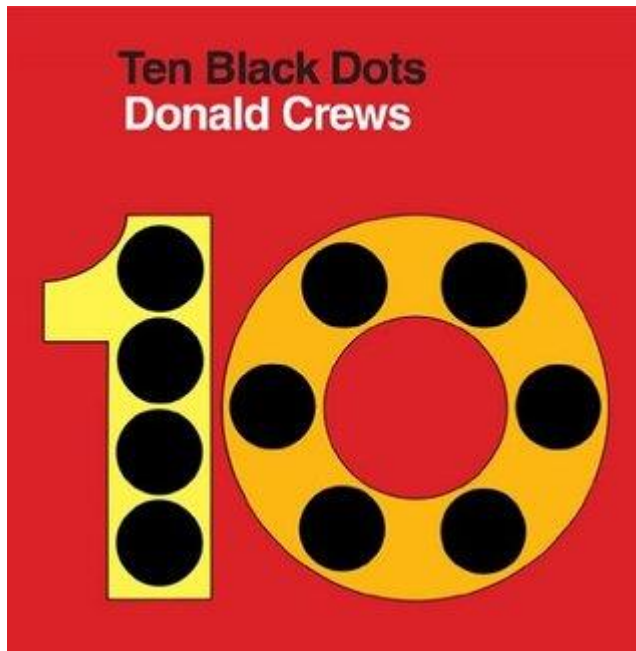

Form addition activities: Choose 2 cards, then count out how many objects are made using those 2 numbers.

ISBE Learning Standards:

Math 6AECe Differentiate numerals from letters and recognize some single-digit written numerals. 6DECb Use comparison vocabulary 6AECa Count with understanding and recognize “how many”

Language Arts 1AECa Follow simple directions.
