

A Day at My School

Drop-off Time

First, my grown-up will drive me to school and park.

Then, we will walk inside and go to my classroom.

*One of my teachers will
greet me.*

*Then I will find my cubby
and put my belongings in
it.*

Quick Goodbye

I will give my grown-up a hug and say goodbye.

My teacher will be there to help me when I need it.

Next, I will wash my hands to get rid of any germs that might be on them. This is important to keep me and everyone in my class healthy.

Outdoor Classroom

When the weather allows, we will go outside to learn and play. I can choose where I want to play and with who I want to play. My teachers will bring different activities out for us to do. I can ride a tricycle and then I can spin on the swings.

Indoor Classroom

When there is inclement weather, we will play inside. I can choose where I want to play. There are so many fun things to do it is hard to choose. I can play at a table or on the floor. Near a friend or by myself. I can try many different activities. My teachers are there if I need any help with anything.

Pick-up Time

When my school day is over my grown-up will come back to my school to pick me up.

I can tell them all the fun things I did at school on the drive home. I will come back on my next school day to play and learn some more!
